

## **In the Name of God**

### **The Condition of Accepting Foreign Student in Ilam University Of**

#### **Medical Sciences**

##### **The General Condition of Studying Applicants**

Having the certificate of course completion in high school for general M.D. courses applicants and undergraduate, bachelor, master and general M.D. respectively for studying applicants in master, Ph.D. and clinical medicine specialities.

Be perfectly familiar to Persian language (with regard to teaching in different courses in Persian language). Of course, in this regard, some scholarships are considered for the applicants in short-term courses in Persian language. After the final admission and register, the applicants will be introduced to the official legal centers of Persian language teaching. Receiving and presenting the Persian language ending up courses certificate is required for the educational applicants who have no enough acquaintance to the mentioned language.

- The financial ability to pay the educational intitions
- Having no legal forbiddance for accommodation in Iran
- **The Required Documents**
- Completion of the application from
- Copy of educational certificates in which the educational major, the graduate date, the name of studying place, and the applicant's

scores are included. The scores can be based on the English alphabets, percentage, GPA, the qualitative description or based on 20 scores. Anyway, this university tries to apply those students who are liable and hard-working.

- Scan all the applicants' passport's pages
- Scan the applicant's new photo with at least clarity of 300 dpi
- All the documents should be sent to email address: International@medilam.ac.ir. This university tries so much to announce, at most during 30 days after sending the certificates, the first feedback related to the certificate investigations to the applicants.

- **The Related Initiatives to Studying at University**

<b>The degree- major</b>	<b>Annual average intuition Dollars</b>
Bachelor courses	1700
Master courses	2400
General medicine	2400
General dentistry	2400
The Medical Speciality	2400
Ph.D	2400

- ❖ All the above-mentioned figures are Dollar.
- The accommodation and vocational prices are received based on the following table and it is possible to increase by 20%.

<b>The services types</b>	<b>Yearly Dollars</b>
Resident in the student dormitory and the event insurance	200
Meal (breakfast, lunch and dinner)	300

- ❖ All the above-mentioned figures are Dollar.
- ❖ It is possible to provide the special vocational services for the applicant students with paying the related costs.
- ❖ The applicants are free to pay the accommodation and vocational costs as well as using the mentioned facilities and are free not to use the university facilities.

- **The Time- Period of Studying**

According to the health ministry, the time-period of studying in various degrees is based on the following table:

<b>Degree</b>	<b>The average time of studying (year)</b>	<b>The maximum legal time of studying</b>
Bachelor	4	6
General medicine	6.5	9 to 10
Master	2.5	3.5
Ph.D.	4	5
Medical Speciality	4	4.5

Clearly, if needed to pass the Persian language courses, the need for passing the per-required subjects or not successful pass of the selected subjects in different semesters, the time period of studying will be increased.

- **The Time of Sending Documents and Apply for Study**

The applicants can send their own documents without any time limitation during the year. If accepted, the study for the applicant will be started from the first semester. Since the studying semesters in this university is started in the second mid-September and the first mid-February, the applicants are recommended to send their own documents at most to the mid- June or the first mid-November to send to the university email address in order to speed up the application and avoid wasting time. It is note worth that besides the university efforts for speeding up the students' application and the possible least needed time for doing the required steps, it is possible that this process extends more than 3 months.
